

Making Your Kleenex Box

1. Using the following dimensions, cut two pieces out of manilla folders.

2. Glue side "A" on the first piece to side "B" on the second piece.
3. Cut a $6 \frac{9}{16}$ " square piece of cardstock.
4. Trace an oval shape in the middle of the square and cut it out with scissors. Trace the following pattern on the square one inch from the side. Cut the red line portion.

5. Fold and adhere all four tabs (marked "X" in the drawing) to form the box lid.
6. Glue top lid to base to complete box.
