

## Proposed trading card layout:

### Front:

Scientist Name

Picture of scientists or other Image related to scientists

Birth/Death dates

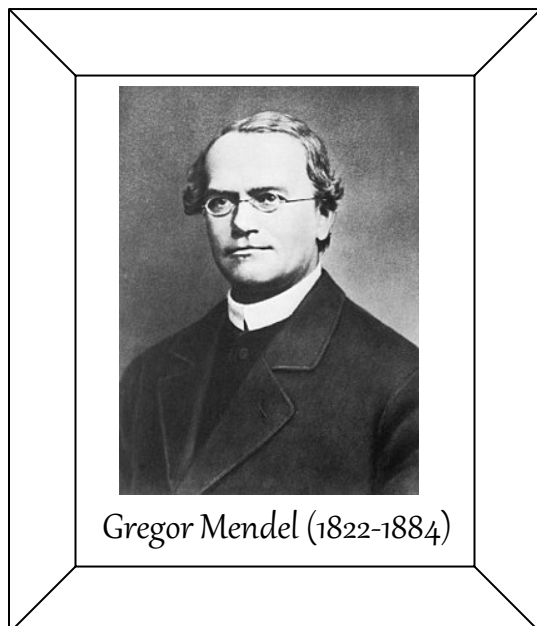

### Back:

Scientist religious affiliation

Brief summary of scientific contribution

One or two fun facts depending on space

### Example:

Mendel was an Augustinian friar and abbot.

Mendel is known as the father of genetics for his work with breeding pea plants. He set the ground rules for heredity of traits.

Fun fact: Mendel studied beekeeping on his family farm.

Fun fact: Mendel was a substitute teacher for a while but eventually failed the oral section on the exam to become a certified high school teacher.
